ABOUT FUMAC

FUMAC designs, develops, manufactures and markets furniture of functional value. Our mission is to be the best furniture manufacturer offering sustainable solutions in selected markets. Our story began in 1956 when cabinetmaker Egon Jensen founded FUMAC in Vinderup in the western part of Denmark. Today we are still a family owned company based on dedicated and loyal craftsmen with a great passion for furniture. We are one of Denmark's leading manufacturers of functional, tailored and durable design furniture for both office and home – and we are proud to say that our furniture is sold in more than 15 countries.

SUSTAINABILITY

We work according to the ISO 14001 environmental management system. We focus on circular economy. We make green accounting. We only procure and sell FSC® certified wood. We offer EU-Ecolabelled products. Our suppliers and we recycle as much as possible. We offer secondhand and discarded products. We minimize our recycled packaging. We use local suppliers when possible in order to reduce our CO₂ footprint. We believe in digital presence to minimize print etc., etc., etc. Sustainability is, however, also about long-lasting solutions which is why our FUMAG solutions have a timeless design in high quality and an outstanding durability combined with a long product guarantee which contribute to a longer lifetime. We furthermore encourage you to choose future-proof and flexible solutions which makes it possible to redesign your furniture if your needs or taste should change over time – sustainability at its best!

EU-ECOLABEL & ENVIRONMENT

As a part of our green strategy, a selected series of FUMAC's office furniture is offered as EU-Ecolabelled products in order to benefit the environment and your health. The EU-Ecolabel looks at the entire product's life cycle from raw materials, use, disposal and recycling: It guarantees higher product durability, less waste and limitation of substances harmful to health and the environment.

VALUES

At FUMAC, our shared values are based in competences, mutual respect and quality. These values can be seen in our products, too. We take pride in delivering the very best quality.

Quality is also delivery on time, great advice and a super service. We listen to you and advise you on the best solutions tailored to your needs – but watch out, we might disagree with you and we might even provoke you a bit to get there!

DESIGN

FUMAC's minimalistic, elegant and exclusive design is inspired by our Danish roots. The clean lines appeal to both classical and modern furnishings and inspire and harmonize with the expression you want to signalize. Our timeless and original design with consideration for nature, environment and quality furthermore ensures that our solutions will last. Our furniture is designed by renowned and award winning architects, upcoming designers, in-house and sometimes even by you. Classic Danish – it can be said as simple as that. But design is not only a matter of aesthetics and form but also functionality and flexibility. We offer the 'Danish way' of thinking, designing, producing and acting.

FUNCTIONALITY & FLEXIBILITY

Functionality is usability, the possibility of multipurpose use, user friendliness, ergonomics and comfort. As an example your Maxi Tower can be used as an informal place for effective stand-up meetings. Customize your own unique furniture by choosing between a great mix of different surfaces and colours and finish it up with selecting accessories that match your individual needs – and place them wherever it suits you - mix and match. The combinations are endless. You can even customize your customized furniture over time according to your needs as our furniture is flexible and futureproof. What works today, doesn't necessarily work tomorrow. And what works for you, doesn't necessarily work for your colleague. But don't worry – we would love to help you all!

INVITATION TO DIALOGUE

With FUMAC's storage solutions you will avoid cluttering up your office. You can choose from standard solutions or even design your own visual expression whether you need e.g. just one storage unit or an entire landscape of storage units. Our storage units can be used as room dividers, sound absorbers and even bulletin boards. Whether the storage units are grouped or not and whether they are with or without an extra decorative top, our storage units can be used as natural, informal meeting points. Our furniture invites to dialogue – are you ready to join?

FURNITURE AT WORK

Our furniture is perfect for all kinds of work and interacting:
Individual Work · Personal Work · Shared Work · Formal Meetings · Informal Meetings · Flexible Meetings · Standing Meetings · Walk & Talk Meetings · Creative Meetings · Conferencing · Learning · Auditoriums · Canteens · Receptions · Cafes · Hotels · Hospitality · Care · Lounge · Relaxation · Chilling out... You name it – FUMAC's furniture works!

CSR

We believe in social responsibility. We require that our suppliers comply with the same high standards that we do ourselves. Our Code of Conduct describes a respectful approach to staff and basic human rights, prohibits child labour and supports the health and safety of staff. Just as we take responsibility for the environment. One more reason for you to feel comfortable when using our furniture!

INTERIOR DESIGN

We don't just sell furniture. We sell complete interior design environments that optimize your and your colleagues' everyday life and increase your employees' satisfaction, well-being and thus efficiency. Our furniture promotes natural interaction and collaboration just as we focus on utilization and optimization of space and furniture. We help inspiring you and together we will find solutions that will match your stylistic preferences and your needs in different places and different situations.

FORM & FINISH

Choose among many materials, surfaces, forms, shapes, sizes, designs... to get your own personalized solution. If you choose natural products like wood or veneer, you will get an even more unique solution as not two pieces of wood or veneer are identical. That is one of the charms about wood and just one of the reasons why we love our craftsmanship.

FSC® – FOREST STEWARDSHIP COUNCIL®

When furnishing your company with furniture from FUMAC you can be convinced that you only get wood from responsible managed forests and controlled resources as FUMAC only procures and sells FSC® certified wood. Together we are responsible and caring about the world's forests, the forest workers and the indigenous peoples, e.g. because no more wood is felled than the forest itself can reproduce. Furthermore, FSC contributes to at least 14 of the 17 UN's Sustainable Development Goals where FUMAC's main sights are set on SDG #3 Good Health and Well-being and #12 Responsible Consumption and Production. Because we care!

INSPIRATION

We get our inspiration from the wild and beautiful nature that surrounds us just as we get inspired by our constantly developing new ways of living & working. The result is innovative furniture that inspires, surprises and pleases you and your colleagues. As an example, our furniture might encourage you to work or interact in new ways. Our furniture has a story to tell – don't hesitate asking!

HEALTH & ERGONOMICS

Physical inactivity is one of the reasons for the heavy rise in lifestyle diseases that we experience in big parts of the western world. Get off your chair and stand up – also during meetings – and you will experience that you get more productive and motivated just as movement might reduce any pain in your neck and shoulders. Our height adjustable desks and conference tables encourage you to change your working positions during the day and to move around to avoid static positions. You can be assured that FUMAC's furniture meets all ergonomic requirements – and more.

HAPPINESS & 'HYGGE'

Studies show that happy employees are more engaged. Engaged employees are more productive, more likely to deliver high-quality results and more loyal to the company. Happiness in the workplace also reduces stress and illnesses. The organization runs more smoothly, reduces employee turnover and increases profits. FUMAC's furniture and interior design solutions help promoting your employees' well-being and create 'hygge' – the good and content feeling you get from a cozy and aesthetically pleasing atmosphere.

COLOURS & MOOD

We offer harmonic colours, classical colours, warm colours, evocative colours, creative colours... Tell us what you would like to express and we will create the mood and style that match your needs – knowing that your needs might differ from space to space, from situation to situation and from time to time.

REFERENCES

We have developed both traditional and modern furniture solutions throughout our many years of experience in the contract market. If you want to learn more about some of our solutions made in collaboration with our loyal vendors, customers and interior decorators, then please contact us, check out www.fumac.dk or follow FUMAC on the social media.
